GPS Coordinates

Coordinates of an address

To find the **GPS coordinates** of an address or a place, simply use our **latitude and longitude finder**. Fill the address field and click on "Get GPS Coordinates" to display its **latitude and longitude**. The coordinates are displayed in the left column or directly on the interactive gps map. You can also create a free account to access Google Maps coordinates finder.

Find an address from its latitude and longitude

Latitude and longitude to address: fill the decimal GPS coordinates and click on the corresponding "Get Address" button.
Address from sexagesimal coordinates: fill the sexagesimal GPS coordinates and click on the corresponding "Get Address" button.

Map coordinates of any GPS location

Click directly on the map to get the address and the GPS coordinates of any **GPS location** on Earth. The **map coordinates** are displayed on the left column and on the map.

The map shows Ghaziabad, India, with a red pin indicating the location. The coordinates are Latitude: 28.66249 and Longitude: 77.43777. A button labeled 'Get Altitude' is visible on the map. Surrounding areas like Nagar, Indirapuram, and Dujana are also labeled.

What is my location?

We opted to center the map on your current location when possible, using the html5 geolocation feature to find out the latitude and longitude of your location. When available, you can also get your **location address**.
Where am I? Your location coordinates are provided by your browser, and we can't access them without your consent. We do not keep any record of the location of our users, so feel free to allow the geolocation feature if you find it convenient. Visit this page to check my location (/my-location).
If you don't share your location, the map will just be centered on a default GPS location.

US Map

We provide you with a map of all countries, and of course a map of the United States (/map/country/US).

Google Maps Driving Directions

Get Driving Directions (/google-maps-driving-directions) with Google Maps for any mode of transportation: driving, bicycling, transit or walking.

Satellite view

Simply click on the "Satellite" button on the map to switch to the Map Satellite view of the chosen GPS location.

Name your GPS Coordinates!

You can name any place you bookmarked and make them available through our API (/api).

Create a free account (/register/) to bookmark your favorite places. Once logged in, just click on the star inside the infowindow on the map to add the point to your bookmark list (you can find it under the map on any page).

This is especially useful if you look for specific places on a device like your desktop, in order to use them later on with your mobile or your tablet. Just login and your points of interest will be available on all your devices (and on all the pages).

Customize your Google Maps

You can create links to custom maps to share with your friends or customers. Try it now (/custom-map).
